

Incidents involving hazardous substances reported to ERMA NZ for the period 01/07/09 to 30/09/09

Incident ID	Date of Incident	Level	Category
586	01-Jul-2009	2 - Medium	Incident - Adverse Effect - Accident
Geographical Location		Otimi Street, Maketu, Bay of Plenty	
Location Type	Incident Type	Substance Involved	Reporting Agency
Private Dwelling	Explosion	aerosol(s)	Media
<p>A young girl received burns to her face when an aerosol can exploded in a outside incinerator burning rubbish. The girl had been standing about 3 metres away from the fire when the can went into the fire by mistake. She had blistering around her face and was taken to Tauranga hospital.</p>

742	17-Jul-2009	2 - Medium	
-----	-------------	------------	--

Geographical Location Great South Road, Drury, South Auckland

Location Type	Incident Type	Substance Involved	Reporting Agency
Workplace	Spill/Leakages	oil	Auckland Regional Council

A waste oil boiler is used to heat green houses. A seal gave way and spilled around 10 000 litres of oil to the ground. The tank itself was banded but the area under the boiler was not. Some of the oil soaked into the ground but most went into the stormwater system and into a pond on a neighbouring property. Clean up was undertaken with sucker trucks and booms.

Incident ID	Date of Incident	Level	Category
690	19-Jul-2009	1 - Low	Incident - Adverse Effect - HSNO Issue

Geographical Location		BP service station, Ardmore Street, Wanaka	
Location Type	Incident Type	Substance Involved	Reporting Agency
Motor Vehicle	Spill/Leakages	antifreeze	Media
Public Place		ethylene glycol	
Workplace		petrol	

A group of Australian visitors mistakenly filled their van's tank with petrol rather than diesel. Once they realised their mistake they moved the van to the rear of the service station and dumped the whole tank of fuel. They then used toxic antifreeze to flush the tank. They were caught on video camera and the council will try to recover the \$3850 cleanup costs from them. Several cubic metres of soil was dug up and removed to Dunedin.

A woman bought a jar of Olay's Age Defying Series Eye Gel at The Warehouse, a product she had been using for many years. But she had an allergic reaction to this Chinese-made gel; after one application, she felt a burning sensation and one side of her face and her eye swelled up.

Geographical Location		Victoria Park, Christchurch	
Location Type	Incident Type	Substance Involved	Reporting Agency
Public Place	Other	cholecalciferol	Media
<p>The Christchurch City Council has stopped using the possum bait cholecalciferol in Victoria Park after one dog was fatally poisoned and another nearly died. A vet treated the dog and induced vomiting in two other dogs suspected of eating the possum poison. Signage was in place in the park informing the public about the bait and dog owners that dogs should be kept on leash. The bait had been used in the park since April. The exact date of the incident is unknown.</p>

Geographical Location		Dun Mountain walking track, Nelson	
Location Type	Incident Type	Substance Involved	Reporting Agency
Public Place	Other	cyanide	Media Public Health Service
<p>Cyanide paste baits were found in the middle of a public walking track with no signage or any attempt to warn the public. 79 baits were removed and buried by the police and a local council officer and the track was closed. The police are investigating. No permission to lay cyanide had been sought or granted for this location. Reinspection of the track by council staff on several occasions and a total of 105 baits found and destroyed. Track reopened 14 Aug 2009. Police are likely to lay charges.</p>

Incident ID 737	Date of Incident 22-Aug-2009	Level 3 - High	Category
------------------------	-------------------------------------	-----------------------	-----------------

Geographical Location Gemstone Drive, Upper Hutt

Location Type	Incident Type	Substance Involved	Reporting Agency
Private Dwelling	Explosion	solvent(s)	Media

An explosion caused by welding sparks igniting solvent cans, has left a 20 year old man with serious burns to 80 per cent of his body. The explosion caused a fireball at least 60 metres high according to a neighbour. The man's partner and baby were in the garage at the time and sustained minor burns. One of the cans of solvent was propelled across the garage and through a car window by the explosion.

Geographical Location		Queen Charlotte Sound, between Lochmara Bay and Double Cove, Marlborough Sounds	
Location Type	Incident Type	Substance Involved	Reporting Agency
Public Place	Other	cyanide	Public Health Service
<p>Cyanide paste baits laid on public walking track with no signage or other warnings. DoC and the police informed by a member of the public. DoC staff erected signage at strategic locations but because of the large number of boat jetties and the indeterminate extent of the poisoning it is impossible to say all entry points were covered.</p>

Geographical Location		Canterbury farm	
Location Type	Incident Type	Substance Involved	Reporting Agency
Private Dwelling Workplace	Other	organophosphate	Media
Four cows died and thirteen showed other signs of poisoning at a canterbury farm. Post mortem inspection revealed green spherical pellets in their rumen. Investigations revealed the cows had been in a paddock treated with Suscon Green and Phorate insecticides applied by a seed drilling contractor 6 - 8 months prior. A small pile had been left in one area of the paddock and the cows had ingested them.

753	08-Sep-2009	3 - High	
Geographical Location		Dingle Road, Ohaupo, south of Hamilton	
Location Type	Incident Type	Substance Involved	Reporting Agency
Workplace	Fire	chemicals oil	Media
<p>A young man has been burnt in a chemical fire at an oil recycling business south of Hamilton. The man, who suffered burns to his body including head and back, was loading 20-litre drums upside down on to a pressurised kerosene cleaning trough when the explosion occurred. Fire engulfed one end of the 25m by 10m corrugated iron building as oil seeped into nearby waterways and land. The victim suffered severe burns to one third of his body and was taken to Waikato Hospital in a critical condition. The firm was ordered to cease operating until it gained resource consent.</p>

-------------	-----	------------------	-------------	-------	----------	----------	--

Geographical Location Kaimiro Street, Pukete, Hamilton

Location Type	Incident Type	Substance Involved	Reporting Agency
Workplace	Explosion	petrol	Media

A man is dead after a disused fuel tank he was working on exploded. The man had just started work using a cutting torch to dismantle the 4500 litre tank when it exploded and he was hit by a flying lid. The shock wave from the explosion could be felt more than 500 metres away. Normally a tank is filled with non flammable gas or water when being cut up to stop an explosion occurring.

Private Dwelling	Other	Brasso metal polish	Public
<p>A man using Brasso metal polish claims to have burns around his mouth and lips from the vapours. This has happened on four occasions and been confirmed by his doctor. He has been using the product for years and wonders if the formulation has changed.</p>			
Incident ID	Date of Incident	Level	Category
797	22-Sep-2009	2 - Medium	
Geographical Location		Near Melville Road, Awakeri, Bay of Plenty	
Location Type	Incident Type	Substance Involved	Reporting Agency
Private Dwelling	Other	alpha-chloralose	Media
<p>Hundreds and perhaps thousands of wild birds and three cats have been killed by alpha chloralose. The vetebrate toxic agent is used by kiwifruit growers to stop birds eating the kiwifruit buds. The cats had died from eating poisoned birds and and some hens had also been poisoned. A controlled substance licence is not required for baits of less than 2.5% alpha-chloralose.</p>
